                                                              You were always there waiting
Thanks for all you've done
I've missed you for so long
                                                              It feels empty and alone
I can't believe you're gone
                                                              I can't believe you're gone
You still live in me
                                                              Refrão:
I feel you in the wind
You guide me constantly
                                                                            Dbm7
I've never knew what it was to be alone, no
Cause you were always there for me
                                                                     Dbm7
            Α
You were always there waiting
                                  Dbm7
And I'll come home and I miss your face so
Smiling down on me
                                                                                  В
I close my eyes to see

And it's your song that sets me free
                                                              And you always will
