

Amanda Hikague - Freedom

tom:

Bm

Intro: (Bm Gbm) 3x

I'm hanging with my friends in the year that's ending now
 Not sure if I'm okay, but I would hate to leave this town
 Been riding rollercoasters since October in your house
 I know we said to bury it in the past, but you came back

It's freedom like I've never ever tasted before
 When you knock on my door
 I'm floating, leaving traces all over the floor
 Of who I was before
 'Cause

You make it feel right, like nothing could die
 When I'm by your side, I know we'll be wild

You make me feel young, like nothing went wrong
 Come on, we may run while still having fun

Between reality and illusion, I would rather be your pawn
 Move me as you wish, but don't forget to watch your ground
 It's freedom like I've never ever tasted before
 When you knock on my door
 I'm floating, leaving traces all over the floor
 Of who I was before

'Cause

You make it feel right, like nothing could die
 When I'm by your side, I know we'll be wild

You make me feel young, like nothing went wrong
 Come on, we may run while still having fun

We fall in love with the people that we wish we could be
 (La-la-la-la-la-la)

I fall in love with the people that I wish I could be
 (La-la-la-la-la-la)

You fall in love with the people that you wish you could be
 (La-la-la-la-la-la)

Ah --- Ah --- Ah

You make it feel right, like nothing could die
 When I'm by your side, I know we'll be wild

You make me feel young, like nothing went wrong
 Come on, we may run while still having fun

You make it feel right, like nothing could die
 When I'm by your side, I know we'll be wild

You make me feel young, like nothing went wrong
 Come on, we may run while still having fun

Come on, we may run while still having fun
