Tom: G

(intro) Em G

The child wakes  
 each moment of sadness for own sakes  
 living, trying is best to believing  
 hoping this dream will come true  
 sadness it's only a face for you  
 I try like a devil to every mains  
 anything for you  
 In only a moment your life can change  
 Still lake  
 rocking above, it is no to late  
 living, trying is best to believing  
 hoping this dream will come true  
 sadness it's only a face for you  
 I try like a devil to every mains  
 anything for you

In only a moment your life can change  
 Yes it's true  
 ( A Em A Em )  
 You fell of the window  
 and now on the floor  
 you find the direction  
 you a quite seem move  
 with your life  
 taken every want to do  
 The people are pretty  
 the flowers are too  
 prompt to your heaven  
 if you don't say you do  
 Cause it's life and it's taken every want to do  
 and it's true  
 I'd like to take you but i don't tempt it's ruin for two
