Comments: Gtr I

This song was quite annoying to tab, at some parts of the song Gtr II  
 the guitarist  
 seems to be toying with tremolo lasts. With this song you need  
 to time everything  
 I am sure i got this right, Im really sorry I didn't have the  
 patience to secure the timing  
 but if you need help contact me, im more than willing to help.  
 This tab is done by hand so Bridge

The Outro is really confusing sometimes, its not tremelo work,  
 its just fast alt. Picking.
