Listen to the song to get the number of times each riff is played, rhythm, etc.

Tune down 2 steps to C.....

Excuse any inaccuracies, I'm a beginner at tab. This is my first tab, and it took me perhaps an accumulated 6-8 hours to do. I can hear that there are a few mistakes, but I did the best I could, and tabbed what I think sounded the best in each such situation. any of the harmonies. Stupid guitars bleeding into each other on each channel.
