Andrew Jackson Jihad - Bad Bad Things

```
Dbm
Do you remember me?
I killed your family
                                                               Dbm
And now I am going to kill you too
           Dbm
I made your brother bleed
I made your father scream
And I made your mother say those things that she said to me
                                        В
She said, do with me what you want, but please don't hurt my
family, don't hurt my family
                                                                    Dbm
Take my pride, take my life, take my body but don't take the
ones that are close to me
                                                                    Dbm
  Dbm
                       Ε
                                 В
Oh, do with me what you want, but please don't hurt my family,
don't hurt my family
Take my pride, take my life, take my body but don't take the
ones that I love
