

## Andy Black - They Don't Need To Understand

```
Tom: C
                                                                The same old road that they all followed
                                                                It only leads to a life not meant for me
                                              G)
 (com acordes na forma de
Capostraste na 5º casa
                                                                Singing all my songs
Growing strong
The voice of my father said
                                                                To bedroom mirrors
Don't give up, don't be forgotten
                                                                F<sub>m</sub>7
                                                                                                      C
                                                                Deep inside my heart I'm here
This hell on earth
I just wanna run away
                                                                We're always running away
                                                                                                                         D
                                                                And we don't even stop to think about it
They told me dreams don't grow from here
                                                                The world's in our hands, yeah
Stay alone, count your fears
                                                                They don't need to understand
Somewhere down the line I might figure it out
                                                                We do it in our own way
                                                                No matter what they try to say about it
Singing all my songs
                                                                We've got our own plans, yeah
To bedroom mirrors
                                                                They don't need to understand
Deep inside my heart I'm still here
                                                                Streets of my hometown
We're always running away
                                                                Seem strange now
                                                        D
And we don't even stop to think about it
                                                                They feel like a distant memory
The world's in our hands, yeah
                                                                I'm always fine 'cause I know you're trying
                                                                But you can never take this dream from me
They don't need to understand
We do it in our own way
                                                                We're always running away
No matter what they try to say about it
                                                                And we don't even stop to think about it
We've got our own plans, yeah
                                                                The world's in our hands, yeah
They don't need to understand
                                                                They don't need to understand
00H 00H 00H 00H
                                                                We do it in our own way
They don't need to understand
                                                                No matter what they try to say about it
00H 00H 00H 00H
                                                                We've got our own plans, yeah
It may be tough, almost killed me
                                                                They don't need to understand
At least that's how I'll remember the story
                                                                00H 00H 00H 00H
Over the years I've forgotten how it was
                                                                They don't need to understand
But I survived and I won't walk down
                                                                00H 00H 00H 00H
                                                                They don't need to understand
Acordes
```
