

# Anette Olzon - Watching Me From Afar

Tom: C

Afinação: Drop D ( D A D G B E )

Intro: D

Like every wind that blows  
 And stars that glow  
 Deep in the darkest night  
 You're my light  
 From all the flowing trees  
 To little bees  
 Beneath what's wrong or right  
 You're the air I breathe  
 Just like a melody  
 Floating over time and space  
 I see your face  
 No matter where you are  
 No matter how near or far  
 You're in my heart  
 Like a star  
 Watching me from afar  
 Within the darkest time  
 Your shine on mine  
 Show me the way to climb  
 Do what's right  
 For every single word  
 You're in my world  
 The doubts just disappear

G2 D D A  
 You're the one I hear

Just like a melody  
 Floating over time and space  
 I see your face  
 No matter where you are  
 No matter how near or far  
 You're in my heart  
 Like a star  
 Watching me from afar

( D Bm G D )  
 ( Bm G D D A )

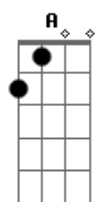

Just like a melody  
 Floating over time and space  
 I see your face  
 No matter where you are  
 No matter how near or far  
 You're in my heart

Just like a melody  
 Floating over time and space  
 I see your face  
 Like a star  
 Watching me from afar

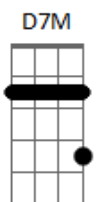

Like a star  
 Watching me from afar

[Final] D
