

Anette Olzon - Watching Me From Afar

Tom: C

Afinação: Drop D (D A D G B E)

Intro: D

Like every wind that blows
 And stars that glow
 Deep in the darkest night
 You're my light
 From all the flowing trees
 To little bees
 Beneath what's wrong or right
 You're the air I breathe
 Just like a melody
 Floating over time and space
 I see your face
 No matter where you are
 No matter how near or far
 You're in my heart
 Like a star
 Watching me from afar
 Within the darkest time
 Your shine on mine
 Show me the way to climb
 Do what's right
 For every single word
 You're in my world
 The doubts just disappear

G2 D D A
 You're the one I hear

Just like a melody
 Floating over time and space
 I see your face
 No matter where you are
 No matter how near or far
 You're in my heart
 Like a star
 Watching me from afar
 (D Bm G D)
 (Bm G D D A)

Just like a melody
 Floating over time and space
 I see your face
 No matter where you are
 No matter how near or far
 You're in my heart
 Just like a melody
 Floating over time and space
 I see your face
 Like a star
 Watching me from afar
 Like a star
 Watching me from afar
