Angel Olsen - Shut Up Kiss Me

```
Tom: G
                                                               Shut up kiss me
                                                                           Em
  G
                                                               Hold me tight
                           Fm
I ain't hanging up this time
                  Em
                                                               Stop your crying
I ain't giving up tonight
                                                                          D
                                                               It's alright
    C
Even if you walk around
                                                               Shut up kiss me
            D
As though you think you're right
                                                               Hold me tight
        C
                                                               D
At your worst you still believe
                                                               Shut up kiss me
     D
It's worth a fight
                                                               Hold me tight
       G
                   Fm
                                                               G I could make it all disappear
                                                               G
                                                                               C
I could make it go away
Tell me what you think
                                                               You could feed me all of your fears
         Em
And don't delay
                                                               We could end all this pain right here
       С
                                                               G
                                                                                 С
                                                                                             D
We could still be having some
                                                               We could rewind all of those tears
    D
                                                                                С
                                                                                             D
Sweet memories
                                                               I could take it down to the floor
                                                               G
                                                                                C
                                                                                             D
This heart still beats for you
                                                               You don't have to feel it anymore
                                                                                                   D
        D
                                                               G
                                                                                         C
Why can't you see
                                                               A love so real that it can't be ignored
                                                               G
                                                                                С
                                                               It's all over baby but I'm still young
G C D
Shut up kiss me
                                                                  I'm still young
            Fm
Hold me tight
                                                               G
                                                               Shut up kiss me
Shut up kiss me
           Fm
                                                                          Fm
Hold me tight
                                                               Hold me tight
Stop your crying
                                                               Shut up kiss me
           D
                                                                         Fm
It's alright
                                                               Hold me tight
Shut up kiss me
                                                               Stop your crying
           D
                                                                          D
                                                               It's alright
Hold me tight
                                                               Shut up kiss me
                       Fm
Stop pretending I'm not there
                                                               Hold me tight
                             Em
G
When it's clear I'm not going anywhere
                                                               Shut up kiss me
     C
                                      D
If I'm out of sight then take another look around
                                                               Hold me tight
                          D
I'm still out there hoping to be found
                                                                           Fm
                                                               000000000000000 (2x)
G
                                                                          D
Shut up kiss me
                                                               00000000000000 (2x)
            Em
Hold me tight
                                                               G E (2x)
                                                               C D (2x)
