D  
It's New Year's Day;  
Looking up to the sky  
We all await for the fireworks to fly  
And I hold you  
And I stand by you now...

D G D  
Over the bay darkness breaks to a glow  
But still the sands keep  
on running too slow  
And I love you  
And I care for you now...

D G  
Green comes after white  
Night turns to day into the fire  
Look at our dreams flying away  
Climbing up higher

D G D  
Along the shore timeless faces reflect

The innocence of childhood never left  
And I miss you  
And I cry for you now

D G  
Green comes after white  
Night turns to day into the fire  
Look at our dreams flying away  
Climbing up higher

D Bb C  
And the ones who we trust  
And the moments of joy  
Mirrored there in a glow  
That will dazzle our eyes

D G C  
Here in my heart, in my soul  
Sharing the miracle of Hope  
In my heart, in my mind, in my soul...  
Stay hand in hand, stay with me  
Love is the key to believe  
In our hearts, in our minds, in our souls!

D G  
... But now no matter what I say,  
Just look at the fireworks!
