

# Angra - Live and Learn

Tom: E

Trilha 1

Letra

=====

Composição: Kiko Loureiro

Remember the first time you've faced the dark  
Why were you so afraid?  
Hiding so many secrets inside  
When fear have got to be tamed

I promise I'll still be there  
To keep my promise  
I'll still be there

To watch over dreams at night  
And follow you through the day  
You shot the doors but I'm right behind  
Where shadows remain

I promise I'll still be there  
To say i promise  
I'll still be there

Don't ask me why we'll be like brothers  
Skating on the ice of mortall loneliness

Live and learn with your mind  
Find a way out of madness  
You dream on (of) paradise  
Who's gonna take you there?
