I build each one of my songs Out of glass, So you can see me inside of them I suppose

Cause I know there is strength in the differences between us

Or you could just leave the image of meIn the background, I guess, And watch your own reflection superimposed

And I know there is comfort where we overlap

I build each one of my days out of hope And I give that hope your name

Come here stand in front of the light, stand still so I can see your silhouette

And I don't know you that well But it don't take much to tell,Either you don't have the balls
Or you don't feel the same

I hope You have got all night' cause I'm not done looking,No, I'm not done

Come here stand in front of the light, stand still so I can see your silhouette

Each one of us Wants a piece of the action, You can hear it in what we say You can see it in what we do

I hope You have got all night'cause I'm not done looking,No, I'm not

We negotiate with chaos For some sense of satisfaction, If you won't give it to me At least give me a better view
