

Anitta - Versions Of Me

tom:
 [Primeira Parte]
 Locked you out the bedroom
 I told you: Never come back
 And you said I smashed the window
 It wasn't me, it was a maniac
 And someone broke into your car in the night (yeah)
 Slashed the tire, left a letter up on the dash
 It read: I'm sorry, I get that I'm always bitter and sweet
 Baby, it was an insomniac

[Pré-Refrão]
 Baby, I swear I'll stay
 Then I'm nowhere to be found when you wake up
 Promise you no more pain
 But maybe we should break up

[Refrão]
 I-i-i'm over the top
 Don't really care if you li-like it or not
 I'm in your mind and you're caught up in my drama
 You want all these versions of me?
 All these versions of me

[Segunda Parte]
 I went and bought a white dress (ah, ah)
 I thought it would be funny to freak you out
 And I promised you forever and you fall for the lies
 It's weird, why do you like being traumatized?

[Pré-Refrão]
 Baby, I swear I'll stay
 Then I'm nowhere to be found when you wake up
 Promise you no more pain

But maybe we should break up
 [Refrão]
 I-i-i'm over the top
 Don't really care if you li-like it or not
 I'm in your mind and you're caught up in my drama
 You want all these versions of me?
 All these versions of me
 I-i-i'm a whole lot
 Don't really care if you li-like it or not
 You're terrified and you're caught up in my drama
 You want all these versions of me?
 All these versions of me

[Interlúdio]
 All these versions of me (oh, oh)
 All these versions of me (oh, oh)
 All these versions of me
 You want all these versions of me?
 All these versions of me
 All these versions of me

[Refrão]
 Over the top (over the top, yeah)
 Don't really care if you li-like it or not (oh, oh, oh)
 I'm in your mind and you're caught up in my drama
 You want all these versions of me?
 All these versions of me (oh, oh, oh)
 I'm a whole lot (oh, oh)
 Don't really care if you li-like it or not (no, i don't care)
 You're terrified and you're caught up in my drama
 You want all these versions of me?
 All these versions of me (oh, oh)
