G In 2016
My mom?got?remarried
F I learned to?love my new family Am
My dad even?turned 61
But he still believes in love
C I think I finally know the difference
Between hiding between living Am
Between pain and reminiscing G
I learned to have forgiveness
When I lost all of my best friends
To some sick impure intentions Am
I still wish them all the best G
I guess that everyone's a lesson
[Refrão]
C And I could say
G F The worst days are over
But forever's a long time away
And I could say
G F The worst days are over
G But at least I made it to today
C And oh I'm better
F
Oh I'm better
Am Oh
G But forever's a long time away
C I've been seeing new places
F Finding love in new faces
Am I even met somebody who
I don't feel scared to love
C My sister got into college F
She's even working a job

```
Seems like everybody is growing up
And finding out what they want
And sometimes I feel guilty
That the time goes by so quickly
Am
That my life got so damn busy
Everything just feels so different
[Refrão]
And I could say
The worst days are over
But forever's a long time away
And I could say
The worst days are over
But at least I made it to today
And oh
I'm better
0h
I'm better
But forever's a long time away
And time moves so fast
Sometimes it scares me now
But you?re with me forever
I know you?ll never leave me alone
'Cause right now the love I have
Ain?t nothing like the past
You're with me forever
For
For worse or better
[Refrão]
And I could say
The worst days are over
But forever's a long time away
And I could say
The worst days are over
But at least I made it to today
And oh
I'm better
