

# Ansel Elgort - Thief

Tom: E

(com acordes na forma de C )

Capostrate na 4ª casa

Call me a thief

There's been a robbery

I left with her heart

Tore it apart

Made no apologies

I've been living in the darkness

Shadows in my apartment, heartless

Taking love just to spill it on parchment

Next page and I'm out again

I've been living in the night life

Lips hit you like a drive by, frost bite

Ice cold, I mean they cut you like a sharp knife

Next page and I'm out again

Skin on my skin, what a wonderful sin

Take your breath but you're asking for more

The tip of my finger is tracing your figure

I say good night and walk out the door

Call me a thief

There's been a robbery

I left with her heart

Tore it apart

Made no apologies

Just call me a thief

She was on top of me

Then I left with her heart

Broken and scarred

Made no apologies

We can be so hollow

Like my rib cage, the echoes follow

Follow me like the fears I swallow

And drown in all my mistakes

All I know is that your skin bled

Like the ink dripped from my pen

My bed will be drenched in a scarlet rose red

And drown in all my mistakes

Skin on my skin, what a wonderful sin

Take your breath but you're asking for more

The tip of my finger is tracing your figure

I say good night and walk out the door

Call me a thief

There's been a robbery

I left with her heart

Tore it apart

Made no apologies

Just call me a thief

She was on top of me

Then I left with her heart

Broken and scarred

Made no apologies

Girl you better just lock me up

Because I've never been good enough

So you better just lock me up, lock me up

Girl you better just lock me up

Because I've never been good enough

So you better just lock me up, lock me up

The tip of my finger is tracing your figure

I say good night and walk out the door

Call me a thief

There's been a robbery

I left with her heart

Tore it apart

Made no apologies

Just call me a thief

She was on top of me

Then I left with her heart

Broken and scarred

Made no apologies

Girl you better just lock me up

Because I've never been good enough

So you better just lock me up, lock me up

Girl you better just lock me up

Because I've never been good enough

So you better just lock me up, lock me up
