

Aquilo - So Close To Magic

Tom: B

(com acordes na forma de A)

Capostrate na 2ª casa

Wouldn't you like to know

Just how I'm doing

It's been so long

This place feels just the same

Old and forgotten

This frozen sound

And the fire burns with great desire

As the stories start to flow

And we'll be drinking through memories and laughing with enemies

We made back when we were so young

As I'm so close to magic

So close to home

Yeah, I'm so close to magic

So close to home

So won't you take the time

Try to remember

It's all in me

It's not hard for me to see

Just how forgotten

These days can be

And the fire burns with great desire

As the stories start to flow

And we'll be drinking through memories and laughing with enemies

We made back when we were so young

As I'm close to magic

So close to home

Yeah, I'm so close to magic

So close to home
