

# Arctic Monkeys - Chun Lis Spinning Bird Kick

Tom: C

This song has two guitars. guitar one does the main riff during the whole song and guitar two does some fills etc

For the intro it's just drums, guitar feedbacks and wierd bendings

main riff: repeats itself through the whole song

Chorus or whatever you want to call it

Guitar 2

Guitar 1

After the first chorus guitar 1 does main riff again while guitar 2 does this, the is a bit wierd but it's easy to find out and if you can't, just by strumming chord A it will be good

Guitar 2 (fill in 1)

then do this while guitar one keeps on with the main riff  
Guitar 2(fill in 2)

Here play the chorus part again  
After that there's a Bridge in which the main riff slightly appears with a wierd effect and one guitar does slides  
Then there's this with the main riff too  
Guitar 2 ( fill in 3)

Guitar 2(fill in 4)
