[Notes]  
 I tabbed this song by ear by listening to live tracks and the single but its essentially the only differences I can see are the number of times a note is played because that in the recordings i've heard.

[Update 12 August]  
 I have fixed some of the formatting, got rid of some non-sense.

NOTICE: though ive not seen this specific song played live, turner plays his etc as barre chords arpeggiating them, this works here too so i assume he plays it with

barre chord:

E A D G B e  
 7 7 9 9 8 7

but modified to:

E A D G B e  
 7 7 7 9 8-10 7

This means that on the B string you have a finger on both 8th and 10th frets so you also have to lift fingers rather than moving entirely for minimal movement while playing.

Standard tuning: EADGBE  
 No Capo

//note: I transcribed this with an acoustic but it should be right  
 | ( ) optional
