Tom: G
Intro: G C G C
G C Am D

G
You keep me in your orbit
C
Well, I know I'm a hard one to please
G
Give it too much importance
C
My love'll have you fall to your knees
G
I tell them this too often
C
Know better than to bark up my tree
Am
Just for me to fall and leave
D
Nah, I'd rather just watch you smoke and drink, yeah

G C
Steering clear of any headaches to start

And if we're being honest
G C
I'd rather your body than half of your heart

Or jealous-ridden comments
G C
That come when you let in them feelings that I don't want
Am
I never let 'em know too much
D
Hate gettin' too emotional, oh, yeah

G C
I'm better off without him
G C
I'm better off being a wild one
G C
On the road a lot, had to keep it a thousand
Am D
So that I'm better off not being around ya

G C
Go on and face it, I'll never be ready for you, ready for you
G C
I swear my love is a curse, make you handle issues, handle issues
G C
Let's put them topics to bed and go fuck on the roof, just to say that we did it
Am
You keep insisting I listen to your proposition
D
I dismiss them all, no offense, yeah

G
Steering clear of any headaches to start
