

# Ariana Grande - Break Your Heart Right Back

Tom: Gb

(com acordes na forma de Capostrate na 6ª casa C )

I should have saw it coming  
 I should have saw the signs  
 But I wanted to believe you, trust you  
 You said you wouldn't lie  
 But baby you were so good, so good  
 You had me going blind  
 You said it was your best friends, I'm guessing  
 I wasn't your type, hey

What goes around comes around  
 And if ti goes up, it comes down  
 I know you mad cause I found out  
 Want you to feel what I feel right now

Now that it's over  
 I just wanna break your heart right back, right back  
 Want you to cry me a river  
 I just wanna break your heart right back, yeah  
 All this time I was blind. Running around Telling everybody  
 My baby loves me  
 My baby loves me  
 My baby, my baby, my baby loves me

You said I was your best, would be your last  
 Now he's gone, you're alone. Don't want you back  
 You're telling me you're sorry  
 Well sorry, my friends  
 Cause I've already been there, done that  
 Ain't doing this again, no

What goes around comes around  
 And if ti goes up, it comes down  
 I know you mad cause I found out  
 Want you to feel what I feel right now

Now that it's over

I just wanna break your heart right back, right back  
 Want you to cry me a river  
 I just wanna break your heart right back, yeah  
 All this time I was blind. Running around Telling everybody  
 My baby loves me  
 My baby loves me  
 My baby, my baby, my baby loves me  
 My baby loves me  
 My baby loves me  
 My baby, my baby, my baby loves me
