Armin Van Buuren - Echoes (feat. Florentin & Jordan Grace)

```
                              tom:
                 G                [Intro] Am  Em  G  D
          Am  Em  G  D

Am                Em
   I travel these roads
G                   D
  With shadows and scars
Am              Em
   Where is my angel?
G                 D
  Where has she  gone?
Am                Em
   I chased all the fears
G                       D
  That are deep in my heart
Am                           Em
   Yet the ground is still hollow
G                   D
  Now who do I follow?
Am               Em
  Where are you now?
         G               D
I've been searching for you
        Am            Em
On this road that is lonely
        G               D
I've been calling for you
                 Am         Em  G
Can you hear my echoes?
        D                  Am  Em  G  D
Can you hear my echoes?

C
  Burn all the clouds
    Am                      Em
And show me a love that I've never known
             D
You know I'm ready for it
C                       Em
Give me a sign on this lonely road
           G
 Won't you tell me now
        D
You can hear my echoes
                                 
( C  Em  G  D )
( C  Em  G )

           D
Oh, can you hear my echoes?

( Am  Em  G  D )

Am                Em
   I'm out on the edge
G                   D
  I'm falling with time
Am                Em
   The dreams I let go
G                     D
  The ones I left behind

Am                Em
   Where are you now?
         G               D
I've been searching for you
        Am            Em
On this road that is lonely
        G               D
I've been calling for you
                 Am         Em  G
Can you hear my echoes?
           D                  Am  Em  G
Oh, can you hear my echoes?
           D                  Am  Em  G  D
Oh, can you hear my echoes?
