

Arrows To Athens - Used to Be

```
Tom: Bb
Intro: Bb
                                                            Because we can have more
                                                                  Gm7
                                                                                     Fb7
                                                            As the waves come, let 'em take us
Take a breath; take a long look around
Before you step
                                                            As they cover you and me, and they pull us underneath
                                                                                    Eb
'Cause the tide is coming
                                                                                               Bb
                                                            I hope that fate will forgive us for tempting the sea
Swallowing the ground-
                                                                      Gm7
                                                            I hope that they won't forget us
                                 Gm
And there's no way to tell if we will drown tonight
                                                            No we can't go back to the way it used to be
         Eb Eb7
Or we'll be found tonight
      Bb
                                                            So certain, where it would take us
Come in close; if the current gets us
                                                                       Bb F Gm7

                                                            So sure that we were never lost;
Then it gets us both
                                                                    F Bb Eb
                                                            To notice whether we'll be drowned tonight or found tonight
          Eb
And we can't wait here anymore
        Gm7
                                                            So as the waves come, let 'em take us
So if the waves come, let 'em take us
                                                            As they cover you and me, and they pull us underneath

                                                            It takes the shape of who will save us
                        Eb Bb
I hope that fate will forgive us for tempting the sea
                                                            When it leaves it's hard to know
         Gm7
                      Eb7
I hope that they won't forget us
                                                            But I will not let you go
But we can't go back to the way it used to be
                                                                       Gm7

Take it in; take a good look at
                                                            No we can't go back to the way it used to be

What it might have been.

As we're swept into the water from the shore
                                                            I hope that they won't forget us
Because there's no way they can tell us that we can't have
                                                            No we can't go back to the way it used to be
