Meu eu lírico que canta, meu empírico que se perde

Eu ser vivo que espanta, me leve

Meu eu lírico que canta, meu empírico que se perde

Eu ser vivo que espanta, me leve

Onde o sentimento emana, onde o corpo transborde

Para um colo que acalanta, onde todo excesso pode

Me leve! Me leve! Me leve!

Me leve! Me leve! Me leve!

De tudo que já sei que sou

Me leve! Me leve! Me leve!

Me transborde, não só de amor

Me provoque movimento, meu empírico sentimento

Me confunda o pensamento, meu lírico argumento

Me provoque movimento, meu empírico sentimento

Me confunda o pensamento, meu lírico argumento

Minhas razões em desordem

Meu corpo que não me sustenta

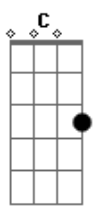

Meus pensamentos que urdem

E a minha alma fraudulenta

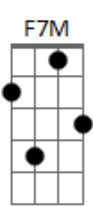

Me leve! Me leve! Me leve!

Me leve! Me leve! Me leve!
