

Ary - Coffee & Whiskey

tom:
Capostrate na 4ª casa

Having you was like coffee and whiskey
In the middle of the night
You warmed me up
And made me feel alive
Loving you was like a road trip to nowhere
Pretty view but we'll never get up close

Don't you want to go outside
See the sun through ember eyes
We could dance and make believe we'll be alright

Will you remember in the morning?
The fault in our stars was a panoramic view
Your lack of words still hold no meaning
But i'll still fall asleep with you

I'll still remember in the morning
The fault in our stars was a panoramic view
Your lack of words still hold no meaning
But i'll still fall asleep with you

'Cuz you were my muse

Kisses like the texts you never sent me

At a quarter to nine you pick me up
And take me for a ride
Glass half full but my glass's still half empty

I'll be your favourite song
If you'd like then I'll be your headphones

So don't you want to go outside
See the sun through ember eyes
We could dance and make believe we'll be alright

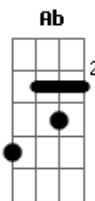

Will you remember in the morning?
The fault in our stars was a panoramic view
Your lack of words still hold no meaning
But i'll still fall asleep with you

I'll still remember in the morning
The fault in our stars was a panoramic view
Your lack of words still hold no meaning
But i'll still fall asleep with you

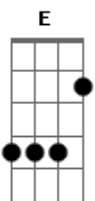

'Cuz you were my muse
'Cuz you were my muse
'Cuz you were my muse
'Cuz you were my muse

Promise me that we were never dreaming
Lay with me we'll make beliefs align
