Great God, we need you here
Need you here
Great God, we need you here
We need you here

God of our father
God of the wonders
God of yesterday, today and forever

Great God, we can't live without you here
Can't live without you here
Great God, won't you be near
We can't live, we can't breathe without you here
Great God won't you be near
Won't you come closer to us, God
Great God, we need you here
We need you here
Great God be near me now
Be here with un now
Oh, right here in the midst of us now
Great God, be with us here
Be near
