

# Ashton Irwin - Last Night of My Life

tom:

G

This could be the last night of my life

Em "Tomorrow's not guaranteed" was the last thing that you said

D Now that she's buried deep, oh, we'll travel around in my head

Em I pick up a memory, drive around in my Corvette  
D She keeps reminding me no one knows the time they got left

Em Who knows when it'll come?

Bm When the air will slip out my lungs

D Got the movie right in my head

B7 And I don't wanna skip to the end

This could be the last night of my life

G So why am I here pretending to like

G All of these people who stuck in a knife?

G This could be the last night of my

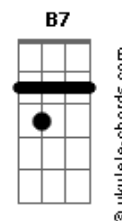

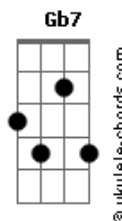

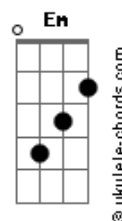

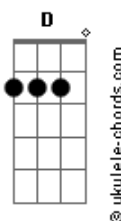

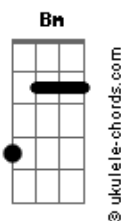

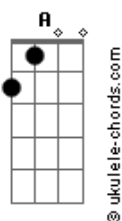

Em Night of my, night of my life

Em Think I could lay me down for that long and final rest

D If I confess to you all the rain left in my chest

Em

## Acordes

Hide from my mask on the floor, you kill my heart to the core
