So here's one from the heart. My life right from the start.
                                                                So here's one from the heart. My life right from the start.
I need a home sweet home, to call my own.
                                                To call my
                                                                I need a home sweet home, to call my own.

 It was you, that told me I could do this.
                                                                Yeah!
You put the music in my heart. And how you sang with the band
                                                                 You know it's just, Rock and roll, I know you're by my side
in Memphis.
                                                                through it all.
                                                                My terror twin and I, let's take over the world.
 It's hard just, to be strong.
                                  Not knowing if, I've done
                                                                 Even though I'm on my own, I know I'm not alone,
I like to imagine you smile when you hear my songs.
                                                                'cause I know there's someone, somewhere. Praying that I make
 Even though I'm on my own, I know I'm not alone,

A letter home and I know we don't speak much.
And we both know I'm not keen to, but I think there's things
                                                                I need a home sweet home, to call my own.
I've left unsaid.
