

# Audioslave - Dandelion

Tom: A  
Intro: A D

[Verse 1]

A D  
Settle down now and sit with me  
A D  
Let me tell you how this all came to be  
A D  
A yellow flower with your pedals to the air  
B D A B  
And flying on paper wings that brought you here  
A D  
Summer rolls on in the lazy hours  
A D  
An ether dream way Of hummingbirds and clouds  
A D  
Midnight swims in the cool back waves  
B D A B  
And you in my arms as it rolls away

[Chorus]

D E Gb  
Little dandelion Let your heart keep time  
D E Gb  
Now the clouds are gone All of your tomorrows shine

Oh oh oh oh oh oh oh oh oh oh  
E D Gb  
All of your tomorrows shine  
E Gb  
Oh oh oh oh oh oh oh oh oh oh  
E D Gb  
All of your tomorrows shine

[Verse 2]

A D  
Born of restless night the moon as a pearl  
A D  
Playing games down inside your soft warm world  
A D  
Hear my voice I know that you can  
B D A B  
You're the fire in my eyes The sun as a man

A D  
Seasons come along and seasons go  
A D  
And what they'll leave behind I don't pretend to know  
A D  
I'm afraid that all I have missed  
B D A B  
Will loom very large when the darkness lifts

[Chorus]

D E Gb  
Little dandelion Let your heart keep time  
D E Gb  
Now the clouds are gone All of your tomorrows shine

Oh oh oh oh oh oh oh oh oh oh

All of your tomorrows shine  
E Gb  
Oh oh oh oh oh oh oh oh oh oh

All of your tomorrows shine

you know ...
