

# August Greenwood - Taroko

tom:  
Eb (forma dos acordes no tom de D )  
Capostrate na 1ª casa

Whale shark in the water floating by  
Stingrays swim beside him saying: Hi  
The otters and belugas, they all salute us  
Oh, what a beautiful day to stay inside

Oh the blue, blue water  
Makes you look so pretty  
Next to jellyfishes  
Swimming in captivity

I know you're far more focused on the deep blue scenery  
But I can't focus when you're next to me

Oh, taroko  
Oh, I love you so  
Oh, taroko  
Oh, I love you so

Admiring the fossils on the wall  
Not troubled about anything at all  
The manta rays above us  
They stop to say they love us  
Oh, what a beautiful day to fall in love

Oh the blue, blue water  
Makes you look so pretty  
Next to jellyfishes  
Swimming in captivity  
I know you're far more focused on the deep blue scenery  
But I can't focus when you're next to me

Oh, taroko  
Oh, I love you so  
Oh, taroko  
Oh, I love you so

There's taroko, swimming by  
And there's yushan, not far behind  
And your hand is falling into mine  
And with you, I have nothing to hide

Oceanic wonders up above  
The beauty that you're more than worthy of  
The ocean all around us  
The happiness that found us  
Oh, what a beautiful day to fall in love  
Oh, what a beautiful day to fall in love  
Oh, what a beautiful day to fall in love
