

Aurora - Dreams

tom:
 I've needed so much, with nothing to touch
 Floating from earth
 Another bridge burned, a mother concerned
 Come back to the world
 In my dreams
 Everything's more quiet than here
 In my dreams
 Everything I feel disappears
 (Em Bm Am G)
 The night became new and out of it grew
 A hymn of the pearl
 Don't lie to yourself, don't lie to the world
 Don't lie to a girl
 When your shadows were forgiven, I abandoned your religion

And I knew that I would never come back
 So tired and so aimless, I travelled through the darkness
 So my path would be impossible to track
 In my dreams
 Everything's more quiet than here
 In my dreams
 Everything I feel disappears
 (Em Bm A G)
 (Em Bm A G)
 Learn my body and my poems
 And repeat them like you own them
 Like the arrow and the willow, we all bend
 Let the mothers and the daughters climb out of the waters
 Like the needle and the cockroach, we mend
 In my dreams
 Everything's more quiet than here
