 When I lay in your arms
 And our worlds can collide

 Into one atmosphere

We are here till we're not

 When I see you again

 As a stranger or a friend
C#7M **F#7M**
 Could you give me a kiss from the past?

 Like a lake in the glass
C#7M **F#7M**
 Like an endless reminder of us

[Refrão]

Ebm **Ab7**
 I don't fear love anymore
C#7M

And how it hurts
F#7M
 When you walk out of the door

 Forgetting why we fell in love
C#7M
 Hurts me the most

[Segunda Parte]

F#7M
 I recall our minds

Being strange and alike
C#7M
 You were quiet most

I would watch and explode

Acordes

 With the storm in my mind
 You would understand why
C#7M
 They all name hurricanes after us

[Ponte]

 With a piece of your heart
