It's a complicated story

That we never talk about Dm

But I see it in the mirrors G

In the curtains of our house C

I don't want you to be worried Am

That we're running out of time Dm

It doesn't matter where we're going G

We can leave it all behind C

Am

Only when I see you cry

Dm

I feel conflicted in my mind

G C

It fills my heart up and it breaks me at the very same time

Am

When you open up the gates for me

Dm

And leave the world behind G

We find proof of love is hidd?n

C

In the conflict of the mind

C Am

I rem?mber how I'd find you

Dm

Fingers tearing through the ground

G

Were you digging something up

C

Or did you bury something down?

Am

In your soul, I found a thirst

Dm

With only salt inside your cup

G

In your eyes, I saw a longing

C

While I longed to lift you up

Am

Only when I see you cry

Dm

I feel conflicted in my mind
