

# Aurora - Thought The Eyes Of Child

Tom: C

C                      F                      C  
 The world is covered by our trails  
C                      G                      Em  
 Scars we cover up with paint  
Am           Em           Am           C  
 Watch them preach in sour lies  
C                      F                      C  
 I would rather see this world through the eyes of a child  
C  
 Through the eyes of a child

C                      F                      C  
 Darker times will come and go  
C                      G                      Em  
 Times you need to see her smile  
Am           Em           Am           C  
 And mothers hearts are warm and mild  
C                      F                      C  
 I would rather feel this world through the skin of a child  
C

Through the skin of a child...

C                      F                      C  
 When a human strokes your skin  
C                      G                      Em  
 That is when you let them in  
Am           Em           Am           C  
 Let them in before they go  
C                      F                      F                      C  
 I would rather feel alive with a childlike soul  
C  
 With a childlike soul...

Hey oh, oh hey  
 Oh hey  
 Ah-ah hey  
 Oh hey  
 Hey oh, oh hey  
 Oh hey  
 Ah-ah hey  
 Oh hey  
 Please don't leave me here
