

Austin Mahone - Wait Around

Tom: C

It's too damn late to be thinking 'bout
 These old mistakes, it's crazy how we're
 Up and down, up and down
 I need to know if you're in or out, in or out

 Can we both agree, ain't the same?
 Time will tell, things have changed
 I need you to tell me, baby, tell me, baby, tell me, babe
 Tell me how to see, I gotta know either way

 'Cause I can't wait around for you, you, you
 'Cause I got too many things to prove, ooh ooh
 I think it's time that you choose, what this really means to
 you
 I wish I could read your mind, just to predict your next move
 Yeah 'cause I can't wait around for you, you, you

 'Cause the good ones will go, if you wait too long
 I learned that from my, favorite song, We're
 up and down, up and down, I need to know if you're

in or out, in or out

Can we both agree, ain't the same?
 Time will tell, things have changed
 I need you to tell me, baby, tell me, baby, tell me, babe
 Tell me how to see, I gotta know either way

 'Cause I can't wait around for you, you, you
 'Cause I got too many things to prove, ooh ooh
 I think it's time that you choose, what this really means to
 you
 I wish I could read your mind, just to predict your next move
 Yeah 'cause I can't wait around for you, you, you

 C Baby, I'm still holding on for all of my patience is gone
 Baby, I'm still holding on, holding on to you

 'Cause I can't wait around for you, you, you
 'Cause I got too many things to prove, ooh ooh
 I think it's time that you choose, what this really means to
 you
 I wish I could read your mind, just to predict your next move
 Yeah 'cause I can't wait around for you, you, you
