 First of all, apologies for naming the riffs "Riff A" and so on, it would have just been impossible for me to give each part of the song it's own name, since there are so many different variations of the main riffs. It's just as easy to work out which parts to play when as the song order tells you which riffs go where. It's the longest song I've tabbed thus far, I hope I'm still doing well! I've only tabbed guitar one's parts I'm afraid, it would have just killed me if I'd have tried to do both, I'm not up to that. He doesn't have that involved a part in the song anyway, and it sounds GREAT on it's own, trust me :) ENJOY!!!

 Half way through these eight, (..you hold  
 the power..)  
 (..i've been the wrong one time and time  
 again..)  
 After a few R's and S's, (..you've turned  
 away from me..)

Repeat Riffs R and S whilst the song fades out.
