

Avicii - Can't Catch Me

```
[Solo]
Intro: Em D G C G D
Em D G C D
Papa, he was gone tryna make a dime
Mama kept us warm when there was no sunshine
                 D G C
I was busy building up a reputation
Did a lot of things out of desperation
           D G C
Back up on my feet, got the motivation
                     D Em
Now I found my faith and a good vibration
Search for you, lover, creation
When you're feeling down in this place, just replace them
Keep a vision on the one you've been chasing
When the time comes we'll run to the station
We've been laced with the powers of creation
So when the sun sets, you bet you must face them \bar{\ }
Remember when we were running 'cross the nation
We were living for the here and now
        Fm
You can't catch me
I'll be gone by the time they come
        Fm
You can't catch me
The war is already won
          Em
Even though the children have sold their guns
We must remember the fallen ones
Remember the fallen ones
```

```
Raised in the capital of Port-au-Prince
Born with them pillars and them tenements
           D
                 G C
Papa used to run from the immigration
When we got to the United Station
          D
A teen under pressure, had to blend in
Before the guitar I had to back in
( Em D G C G D ) ( Em D G C D )
Thanks for you, lover, creation
When you're feeling down in this place, just replace them
Keep a vision on the one you've been chasing
When the time comes we'll run to the station
We've been laced with the powers of creation
So when the sun sets, you bet you must face them
Remember when we were running 'cross the nation
We were living for the here and now
You can't catch me
I'll be gone by the time they come
        Em
You can't catch me
The war is already won
             Em
Even though the children have sold their guns
We must remember the fallen ones
Remember the fallen ones
```
