

# Backstreet Boys - Darlin'

Tom: **Bb**

Spoken word:

Baby, can I talk to you  
I know something's wrong  
Things just ain't the same  
But deep down inside  
I know you still care  
So tell me what to do  
To get things back again  
The way they used to be

If your words have meaning  
If you really care about me  
Tell me why can't I find love in your heart  
If you are my lover  
Or come as a friend to me  
Tell me why would you turn away from my love

Chorus:

So darlin' tell me what to do  
to make things right (3x)  
(Tell me what to do to make things right)

If your words have reasons  
Then they would turn away from me  
Trying hard to hide all truth that you might say  
If you listen to me girl  
If you know how I'm feeling inside  
Then maybe,  
you wouldn't shut me  
out of your life, baby

Chorus

All I'm asking for is a chance  
To let me love you

Girl you know,  
with me is where you should be  
And if I change that we should find  
That it can be for you and I  
Then girl I've tried  
I've tried, oh baby

Chorus

Give anything for your love to be  
How can I make you mine

Spoken word:

Girl you should know how I feel by now  
There are so many ways to love  
So just open your heart  
And I'll find a way

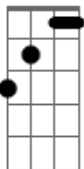

Can't you see  
All I'm asking for is a chance  
To let me love you  
(Can't you see)  
Girl you know,  
This is where you should be, ooh,  
And if I change that we should find  
That it can be for you and I  
Then girl I've tried  
I've tried, oh baby

Chorus

(Oh my darlin')  
(I need to know)  
(I just wanna know how to make things right)  
Baby won't you tell me what to do to make things right (2x)  
You gotta tell me girl,  
You gotta let me know.

## Acordes

**Bb**
