

Backstreet Boys - That's what she said

Tom: D

D
There are people
G A
Who say what you wanna hear
D
Even on a rainy day
G A
They tell you the sky is clear
D
When you really really love someone
G
Am I right when I say
A
That you want them near
D
And if you can, you'll even tell
G A
Them things that they wanna hear

Chorus:

D G A
Always, forever

All the things she said
D G A
Never say never

Those simple lies that she fed
D G A
I will never leave you

All the love I thought she had
D G
But can you blame me

No
A
Mmmm
A
Cuz that's what she said
D G
That's what she said
A D
She told me we'd see forever
D G
That's what she said
A
She said
D
Yeah

D
And there are people who
G A

Say what they really mean
D G
She said she'd always be there
A
She said she'd always care
D G
But just when you think that you can trust that
A
someone you love
D
Tell me

how do you know
G
How stars can fall from above

Chorus and chorus 2

G
That's what she said
A D
She told me we'd be together
G A D
That's what she said, she said ya
Em
Cause you made promises
A
That you couldn't keep
Em
But you're not hurting yourself
A
You're only hurting me
Em
Why would you say things
A
That you really didn't mean
G
Oh how can I make you see
A
Just what you did to me
D Bm
You said how much
D
You really cared
Bm
Just when I thought I was in love

Girl, how could you dare
D
If I were you I could never
Bm
Lie even once
G
To the face of the one
A
That I love so much
