

Bad Influence - Dreams 4Ever

tom:

Last night I could find something warm
 In the middle of the night it calls me
 Between the life and death
 You decide
 A million miles away it searches me
 (Am F G C)
 (Am F G C)

(Ooh-ooh)

Yeah!

When I see your face in the darkest night
 I just wanna be the only who change your mind
 But my life is real you're a simple dream
 That remember me the love is mistery

Oh please
 Let me be this boy
 Who you never forgot
 I won't close my eyes
 But somebody wake me up

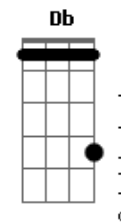

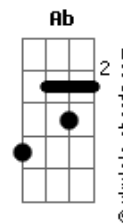

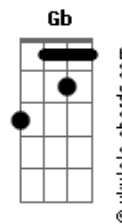

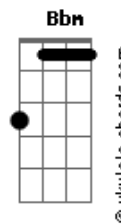

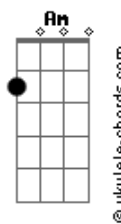

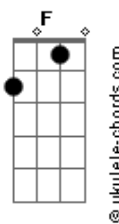

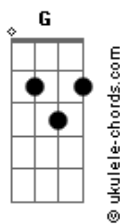

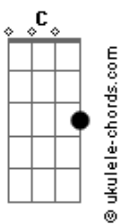

Last night I could find something warm
 In the middle of the night it calls me
 Between the life and death
 You decide
 A million miles away it searches me

(Ooh-ooh)

Yeah!

Look at me in the eyes
 Are you gonna stay by my side?
 Spending nights together together
 Together under the stars

'Cuz Nobody knows
 You could be the first and the last
 I'm sure it last forever forever
 I would make you only mine
