Repeat Thruout The Verse Using Palm Mute Were Needed

--7---5---5

Then When It Comes To The Chorus

After that nit is out there is a high pitched noise which is played on the bottom string

6th---5---3---1---0-----

After that is just the very Beginning all over again the u need to end on the following pattern

Play First Chord **B** It Says "Come Out To Play and Play Until U Get To "And We'll Pretend?"

As soon as u have played the last chord play straight into the Verse above and then repeat it again

If u want the rhythm to this song then I suggest u download it as the rhythm is hard to play but once u listen to the song and get the tune in ur head u will soon get the pattern
