G C D C C D G

A grizzly scene on my electron beam

Told a story about human rights

So all of Kings horses and all of Kings men

Had a riot for two days and nights

Well, the city exploded but the gates wouldn't open

So the company asked him to quit

Now everybody's equal

just don't measure it

G C D C C D

Well Hanson did it to Hester

And Mark David did it to John

and maybe Jack did it to Marilyn

But he did it to South Vietnam

For beauty and glory

For money, love and country

Now everybody's doing it

C D G

Don't do that to me

G C D C C D G

A bitter debate and a feminine fate

Fly in tandem like two precious blades?

A farmer gets warmer its the latter that matters

Except on the nation's airwaves

And custodians of public opinion stay back

at the debate and discuss civil rights

Lay hands off her body

Its not your fucking right

G C D C C D

Well I don't know what stopped Jesus Christ

From turning every hungry stone into bread

And I don't remember how Moses reacted

When the innocent first born sons lay dead

Well I guess God was a lot more demonstrative back

When He flamboyantly parted the sea

Now everybody's praying

Don't prey on me

G C D C C D

Said everybody's praying

Don't prey on me

G C D C C D G
