

Bad Religion - Past Is Dead

tom:

Solemn regret, transgressions fill my head
 A measure of success is how well to forget
 And the past is dead

Strewn about the battlefield of life are the
 Reminders of history
 When convenient we exalt them and pay them such respect
 As if we're all in an equivalent trajectory

And trash piles high in the rubble we forgot
 The angels of our nature just sit and watch it rot

Now, the past is dead
 Let's focus on tomorrow instead
 Oh the tragic present said
 The past is dead

Who can say what constitutes the most important
 Sector of society?
 When the dominant portion seek an instant gratification
 And are proud of intellectual poverty
 I'd like to be emphatic but i can't
 The jeopardy is too great to make a stand
 Now the past is dead
 Good deeds won't help you get ahead
 Yeah the modern signpost read the past is dead
 My next great decision is just lying in wait
 The action might turn out to be the world's most
 Grievous mistake
 F C G X 4
 Yeah the past is dead
 More veritable words have never been read
 Oh the tragic present said the past is dead
