

Bad Religion - Slumber

Tom: F

This song is really a piece of cake: the melody of the guitar is the same as the melody of the vocals...

I first tabbed something usefull if you're not very used to sing & play at the same time. Then there's the tab that sounds damn close to me... and i think it's right if anyone has any correction then send them to me (see above), (no insults, please..)

Well, I got a piece of news son,

That might make you change your mind

And you are helping to put it to sleep

Side by side we do our share

Faithfully assuring that

Slumber will come soon.

Well, now do you feel a little better

Lift up your head and walk away

Knowing we're all in this togeter

For such a short time anyway

Verse 4:

There is just no time to parade around

Sulking, i would rather laugh than cry

The rich, the poor, the strong, the weak

We share this place together

And we pitch into help it die

And I don't fear the consequence

If life makes you scred and bitter

At least it's not for very long
