

Bad Religion - Voice Of God Is Government

Tom: G

neighbors, no one loves you like he loves you,
and no one cares like he cares. C D x2

A neighbors, let us join today in the holy love of God and
money,
because neighbors, no one loves you like He loves you.
and what better way to show your love than to dig deep into
your pockets.
dig real deep, until it hurts. Alleviate your guilt,
free yourself once again, because he gave to you, brothers and
sisters.

and I assure you your modest pledge will be used to censor TV
and radio,
ban questionable books, and contribute to many other Godly
services.
no longer will young Christian Americans hedonistically
indulge

G in masochistic submission to rhythmic music, for with your
monetary support,
there is no end to what we can achieve in this country.

needs.
