Alot of people wanted a tab of this song with the little details, hammer-ons, etc, so I wrote this tab. It's really fun to play, but might take practice. I also recommend listening to the song for strumming and timing.

This chord is used in the third line of the verses.

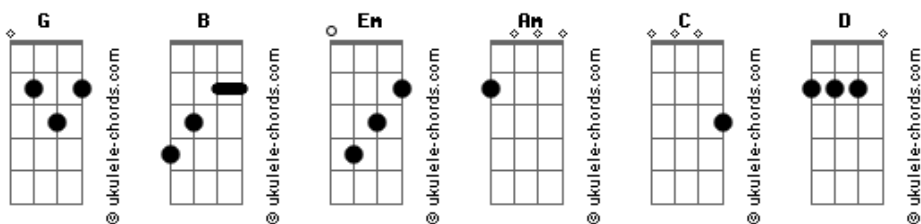

B
E-0-
B-1-
G-0-
D-0-
A-2-
E---

The strumming pattern is pretty simple but I recommend listening to the song to get it perfect.

Verse 1:

There's nothing I could say to make you try and feel ok
 And nothing you could do to stop me feeling the way I do
 And if the chance should happen that I never see you again
 Just remember that I'll always love you

Verse 2:

I'd be a better person on the other side I'm sure
 You'd find a way to help yourself then find another door
 To shrug off minor incidents make us both feel proud
 I just wish I could be there to see you through

Verse 3:

You always were the one to make us stand out in the crowd
 Though every once upon a while your head was in the cloud
 There's nothing you could never do to ever let me down
 And remember that I'll always love you
