

## **Bahsi - You're Wrong**

```
Tom: A
  it sounds untrustworthy the way {\tt i\_speak}
Am G F
Now my eyes are hidden you can?t see
           Dm E7
But i'm watching you moving around
 I was walking freely, carrying with me
                  Dm
A harmonica in the key of c
I was there in the corner
When the cop gave me an order
               Dm E7
Screaming unnecessarily
    this is not what you think
It is just an instrument, but i knew it was too late
?down down down, put your gun down? he said
?sir you have to calm down and put your hands on your head?
And then people came and started pointing fingers at me
Saying ? i don't know what you have done boy
                     Am G F Dm E7
```

```
All i know is you?re wrong!?
are you uncomfortable with me?
Cause you?re walking quickly
 if i had the superpower of invisibility
I know i would finally be safe here
I was walking freely, carrying with me
               Dm E7
A harmonica in the key of c
I was there in the corner
When the cop gave me an order
Screaming unnecessarily
    this is not what you think
It is just an instrument, but i knew it was too late
?down down down, put your gun down? he said
?sir you have to calm down and put your hands on your head?
And then people came and started pointing fingers at me
All i know is you?re wrong!?
