G                          Am
What in the world
Bm                                 Am                    G
Am    Bm    Am
Would cause you to question that?
G                          Am         Bm
How did I come off?
    Am                             G   Am   Bm   Am
Would lead you to ask

     C               D
Can I help you along?
  G             Am
Sun in the room
   Bm                 Am
Curtains too soon
  G                          Am          Bm       Am
The day is coming closer
        G                         Am                    Bm
The dream slipping through me will fade
Am                      G             Am       Bm          Am
Inching slowly from slumber

 C                      D
And I love you a lot
     G               Am
Whatever you want

Wherever you are (Wherever you are)

Wherever you are

Let me tell you babe
 Am                       G              Am   Bm   Am
Not every moment matters

G                         Am        Bm
Across marked jots laid down
Am                              G                   Am    Bm   Am
Look you're growing faster and faster
G                        Am          Bm          Am
Heights that I held you up
G                   Am                  Bm       Am
Times when I couldn't be at home

      C                 D
And I owe you a lot
      G                 Am
So whatever you want
  Bm              Am
Wherever you are (Wherever you are)
  G   Am   Bm   Am
Wherever you are
  G   Am   Bm   Am
Wherever you are
  G
Wherever you are

 G   Am   Bm   Am
Wherever you are
 G   Am   Bm   Am
Wherever you are
 G   Am   Bm   Am
Wherever you are
 G   Am   Bm   Am
Wherever you are
 G   Am   Bm   Am
Wherever you are

Times when I couldn't be enough
 G   Am   Bm   Am
Wherever you are
