

## **Bang Gang - Ghost From The Past**

```
tom:
                                                               Em
You fall like an angel to me
                                           Bm
                                                                     D
And you fell and broke your wings
                               Em
It was never meant to last
                   Bm C
You were just a ghost from the past
I thought you really could be real
                                   Bm D Em
That my_heart was ready to bleed
                  Em Em D
When I walked through pain and fear
You would totally disappear
You know that I love you
You know what I need
                                                                                                                                                          Bm
You know that I find you so tender so sweet
We walked through the darkness
We walked in the sun
We shared all our sorrows
We shared all our love
                       Fm
You said that you love me
You said that you cared
So how could I know I had something to fear
I don't know where you are
I know that you're hurt
                                                                                                                                                    Rm
I should have been able to sense your alert
You came like a stranger to me
                         Bm D
And you said you were for real
Now I do know where this will end
Bm C Em
I was cold and I needed a friend % \left( 1\right) =\left( 1\right) \left( 1\right)
                                                    Em
I turned on the light so you could see $\operatorname{\textsc{Bm}}$ D \operatorname{\textsc{Em}}
I was stuck in some other dream \ensuremath{\mathsf{I}}
                                           Em D
Still my eyes were crystal clear
Acordes
```

```
You came closer and shattered my tears
You know that I love you
You know what I need
                            Bm
You know that I find you so tender so sweet
We walked through the darkness
We walked in the sun
We shared all our sorrows
We shared all our love
    Em
You said that you love me
You said that you cared
So how could I know I had something to fear
I don't know where you are
I know that you're hurt
                           Bm
                                       C Em
I should have been able to sense your alert
How could you say you want me to go
Em Bm Em
When my diamond was starting to glow
When you knew that I wanted you so
 D C D
You left me alone
You know that I love you
   Em
You know what I need
                            Bm
You know that I find you so tender so sweet
We walked through the darkness
We walked in the sun
We shared all our sorrows
   Bm
We shared all our love
You said that you love me
You said that you cared
                           Rm
So how could I know I had something to fear
I don't know where you are
 Fm
I know that you're hurt
I should have been able to sense your alert
```
