

## **Barbra Streisand - What Now My Love**

```
Tom: G
Em7
What now, my
             love
Now that you've left me
                                               D7M G
                Em7 A
How can I live
                        through another day
                   D
Watching my dreams, turn into ashes
                            A7
And my hopes
                   into bits of clay
                    Em7 A7
                                                 Gbm Bm7
                        once I could feel
Once I could see,
                          Em7 A7 D D7M
Now I'm numb,
                I've become unreal
 D7
              Gm7 C7
                                  F7M Bb7
I walk the night
                     without a goal
   Bb6
                             Gdim
                                     Em7 A A7
Stripped of my heart,
                                    soul
                           my
Em7
What now, my
              love
                G
